List of 427 (66 women and 361 men) political prisoners sentenced to execution

or in danger of death sentence

Following the emergence of the "Woman, Life, Freedom" movement, executions, arbitrary detentions, and other serious human rights violations in Iran have intensified. Since December 28, 2025, when a new wave of mass protests began, reports have indicated a significant escalation in repression, including widespread arrests and the use of lethal force against demonstrators. **On January 8 and 9, 2026**, the regime in Iran carried out mass killings during the protests, with estimates of more than 30,000 people killed, alongside tens of tens of thousands of reported arbitrary arrests.

Given the urgent nature of these cases, this list is provided to facilitate documentation, verification, advocacy, and efforts to prevent executions. The information is verified and updated as further details become available.

For information on ways to support individual prisoners and efforts to prevent their execution, including opportunities to become a **political sponsor for a prisoner**, please see the final page of this document.

Year	Executions in the world	Executions in Iran	% Iran / World	Daily average of executions in Iran
2022	825	576	70%	1,7
2023	1153	853	74%	2,3
2024	1518	975	64%	2,7
2025	2707 Amnesty International	2159 Amnesty International	**Iran: 80% of the world's recorded executions**	Approx. **6 executions per day** **One execution every 4 hours**

Important Note Regarding This List

This document contains a partial list of political prisoners in Iran who have been sentenced to death or are at risk of receiving a death sentence. It is important to emphasize that this is not an exhaustive list.

Many families have been threatened by the regime in Iran and warned not to publicize information about their imprisoned loved ones. Due to the regime's lack of transparency and the limited availability of reliable and official information, it is impossible to document the thousands of individuals who may have been subjected to politically motivated charges or allegations, including "Waging War Against God/Enmity Against God" (*Moharebeh*), "Baghi" (Armed Rebellion), "Corruption on Earth" (*Efsad-e fel-Arz*), and espionage—charges that can carry the death penalty.

The list below therefore represents a partial list of individuals who are currently on death row or are considered at risk of receiving the death penalty. Individuals identified as "risk of death sentence" are included because they have reportedly been subjected to charges that can carry the death penalty under the policies of the Islamic regime in Iran.

It is also important to recognize that political prisoners may face the risk of execution even when they have not been formally accused of conduct carrying the death penalty. In some cases, individuals may face severe punishment, including execution, simply because of their participation in protests or other acts of resistance. Therefore, **the lives of political prisoners in Iran may be at risk regardless of the specific charges or allegations brought against them**.

The information has been compiled from publicly available sources, including reports from families, human rights organizations, and other reliable sources. The information is subject to ongoing verification and may be updated as additional information becomes available.

This list is also available on our website. Scan the QR code below to view the full list and access additional information.

List of recently executed political prisoners

The following are examples of political prisoners who have been executed in Iran since January 2026. This is not an exhaustive list. **Not all executions are publicly announced**, and some individuals are reportedly executed in secret or without timely public notification. In some cases, families have reportedly been threatened or pressured not to speak publicly about the execution of their relatives.

These circumstances make it difficult to establish a complete and independently verified record of executions. **The cases below are therefore presented as documented examples of the broader use of the death penalty against political prisoners.**

On the last page of this list is explained how to be a political sponsorship of a prisoner

How can you be a political sponsorship of a prisoner?

Choose a political prisoner from this list (it is also possible to choose more than one) and:

1. **Publish on social networks** (X, Facebook, Instagram...) that accept political sponsorship of this person, for example:

> I am undertaking the political sponsorship of [Name of Prisoner], who is at risk of execution in Iran. I demand an immediate halt to this execution and urge the immediate release of [Name of Prisoner].
>
> I call on the Government of [Country] and the European Commission to take all appropriate diplomatic and political measures to pressure the Iranian regime to halt this injustice, prevent this execution and secure the immediate release of [Name of Prisoner].

2. Send an email to the Iranian embassy in the EU (Belgium) to request that the execution be stopped and to inquire about his legal and physical situation. For example:

To: secretariat@iranembassy.be
Subject: To the Attention of Head of Judiciary Mr. Gholamhossein Mohseni Ejei

> I am **[Name]**, a member of **[Name of Parliament / City Council]**. I firmly oppose the death penalty.
> I am writing to express my deep concern regarding the situation of **[Name of Prisoner]** and to request information concerning their current legal status, as well as their physical and medical condition.
> I the Iranian authorities to annul the death sentence against **[Name of Prisoner]** and to ensure their immediate and unconditional release.
>
> I also call on the authorities to ensure that **[Name of Prisoner]** is treated humanely, has access to legal representation and family contact, and is not subjected to torture, ill-treatment, or any form of coercion.

3. From time to time, post some news on social media about that prisoner's situation
