On 26/10/2022 there was an attack on the Shah Cheragh shrine in Shiraz, 13 people were killed and more than 20 injured. The regime accuses ISIS and blames the Women-Life-Freedom movement as indirect culprit. But the format of the attack does not coincide with ISIS's way of acting and people accuse the regime itself of being behind the attack to repress the movement.

And it may be that these two persons are other victims of the senseless murder of Shah Cheragh.
